

# Terel B Phillips

## Software Engineer

Toronto, Ontario (Open to Remote) | (647) 763-9023 | [terel.phillip23@gmail.com](mailto:terel.phillip23@gmail.com)  
[terel-phillips.ca/](http://terel-phillips.ca/) | [linkedin.com/in/](https://www.linkedin.com/in/) | [github.com/](https://github.com/)

## TECHNICAL SKILLS

---

**Front End** | JavaScript (ES5 and ES6), Vite, React, Next.js, HTML5, CSS3, Tailwind CSS, Redux  
**Back End** | Node.js, Express, PostgreSQL, MongoDB, MySQL, Firebase, RESTful API Development  
**Developer Tools** | Git, npm, Webpack, Babel, Agile Methodology, Heroku, Vercel, Netlify, Github

## PROFESSIONAL EXPERIENCE

---

### Front-End Software Engineer - Chapter Two

2022 - Present

#### Internship

HTML | CSS | JavaScript | React | Shopify

- Developed front-end structure using modular, reusable React components and made final decisions for production-level UI changes.
- Adapted to project-driven environment, successfully meeting project manager criteria through adaptability to new challenges
- Collaborated closely with QA team to address bugs and verify acceptance criteria prior to shipping to production.
- Actively synced with manager to receive feedback and improve skillset through upskilling and pair-programming sessions.
- Led the design of data and API endpoints to enable seamless frontend integration with backend.
- Successfully migrated legacy angular project to React 17, resulting in a 32% increase in customer conversion, driven by a decrease in average page responsiveness by 4 seconds through data-driven analysis and implementation.

### Front-End Software Engineer - Freelance

2020 - Present

#### Full-Time

HTML | CSS | JavaScript | React | Shopify | Figma

- Evaluated client requirements and created designs that aligned with their objectives.
- Scheduled meetings with clients to provide updates on project progress.
- Incorporated client feedback to enhance design quality.
- Developed new features and functionality for clients.
- Setup and managed Google business accounts, purchased and forwarded domains, and hosted and maintained client websites.
- Built lasting relationships with clients through exceptional service and support.

## SOFTWARE ENGINEERING APPLICATIONS

---

### Front-End Software Engineer | Your Casa Concierge

2022 - present

#### Landing Page [GitHub](#) - [Live Demo](#)

Vite | React | Vercel | Tailwind | React Router Dom | Framer Motion | Yup | formik |

- Implemented React Router Dom for page navigation.
- Created responsive design for mobile and desktop devices.
- Used formik and yup modules for form validation.
- Applied Framer Motion to animate components on scroll.
- Monitored components in viewport using Inspection observer.

### Full-Stack Software Engineer | AVANT

2022-Present

#### E-commerce Application [GitHub](#) - [Live Demo](#)

React | Express | Tailwind | Axios | Bcrypt | JWT | Mongoose |

- Implemented JWT authentication using JSON web token library for secure token handling on server and client side.
- Led the design of data and API endpoints to enable seamless frontend integration with backend.
- Implemented React's create context to manage state and promote a cleaner code base.
- Designed data and API endpoints for seamless frontend-backend integration.
- Managed error handling with user-friendly feedback for improved system stability.

## EDUCATION

---

**York University** - Bachelor of Science - BS, Computer Science

2018 - 2022

**London App Brewery** - The Complete Web Development Bootcamp

2020 - 2021
